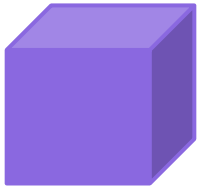
smart**box**

everything you need in a box

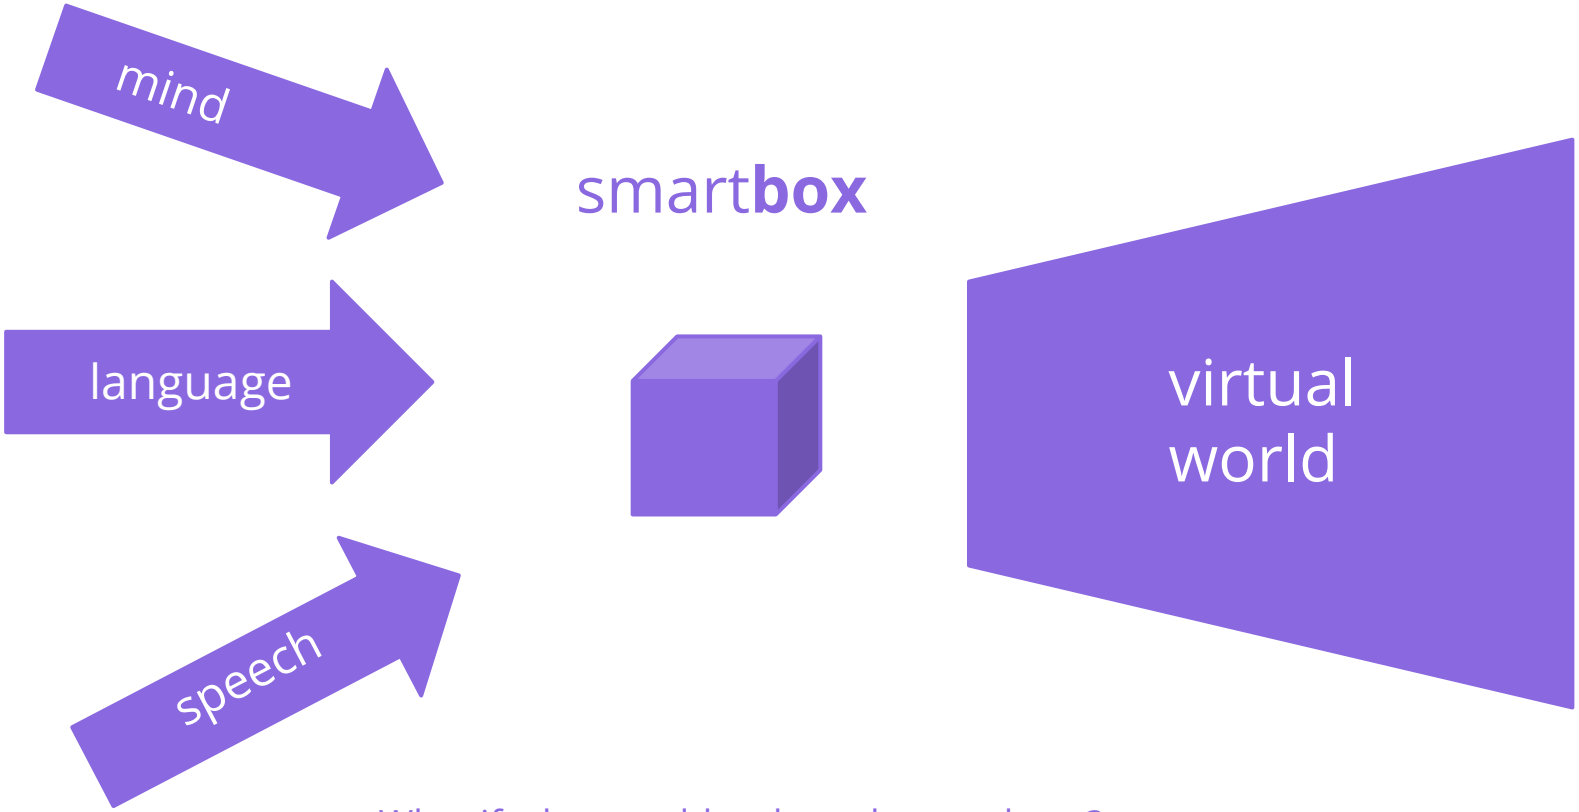
smart**box**

physical
world

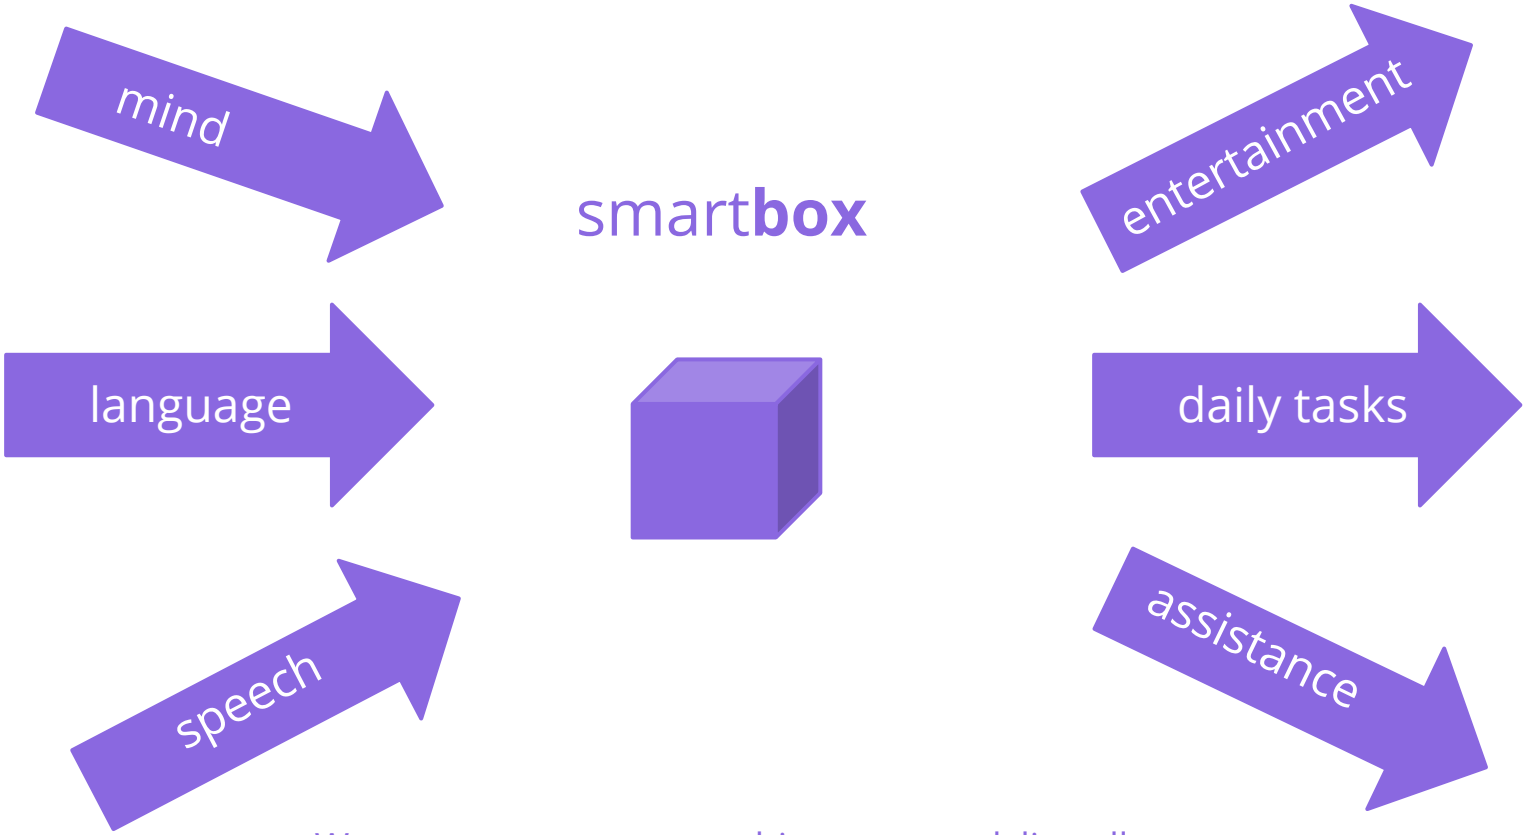


virtual
world

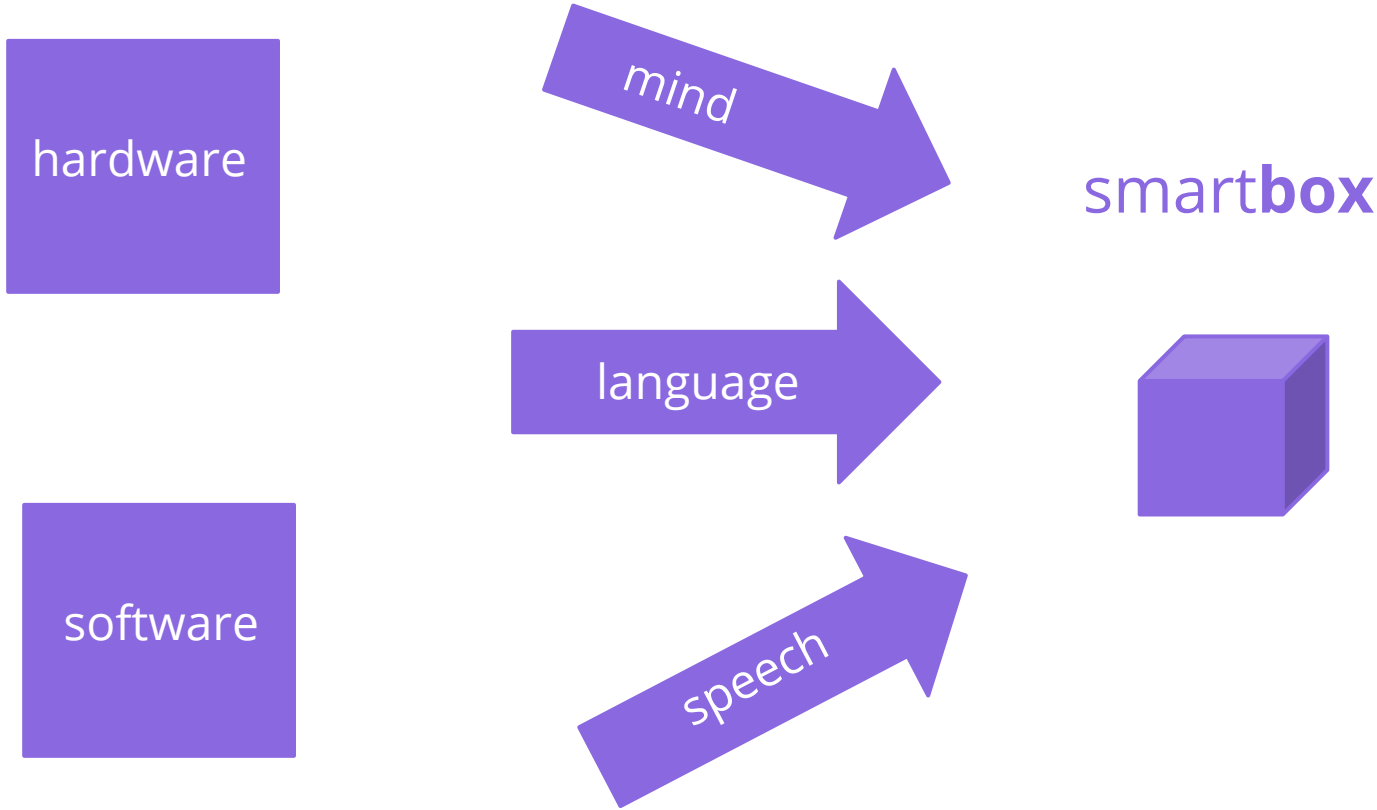
What if a simple box was enough to connect your physical world to the entire Internet?



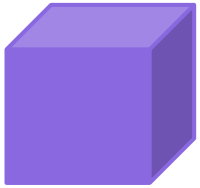
What if a box could truly understand you?



We connect you to everything you need, literally.

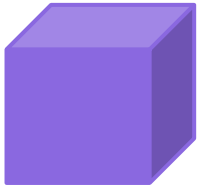


hardware
software
mind
language
speech
smartbox



our hardware understands your body:

by measuring your brain activity, we know exactly what and when you need to ensure your happiness and health.



our software understands your mind:

with voice and text recognition, we connect you to every service and information you need in one click.

smart**box**

solving all of your problems in a box
